

2012 Gypsy Moth Slow the Spread Program: Chart of Spray Sites and Completed Spray Dates

Wisconsin Department of Agriculture, Trade and Consumer Protection

- The 2012 Slow the Spread treatment is planned for 64 sites in the following 22 counties: Barron, Bayfield, Buffalo, Burnett, Chippewa, Clark, Douglas, Dunn, Eau Claire, Grant, Green, Iowa, Jackson, La Crosse, Lafayette, Monroe, Pepin, Polk, Rusk, Sawyer, Trempealeau and Vernon. **This plan is separate from the Wisconsin Department of Natural Resources Suppression Program.**
- Aerial spraying depends on good weather and proper flying conditions. Therefore, dates are usually determined on a day-to-day basis. Any dates that were changed were due to weather, logistical or mechanical problems. The latest spray updates are available on the gypsy moth toll-free hotline 1-800-642-MOTH (6684), option 1.
- Sites were treated with one of the following three products: *Bacillus thuringiensis* var. *kurstaki* (Btk), Gypchek (NPV) or Mating Disruption (MD). Btk and NPV were applied from late April to May. MD treatments were done in June.
- Maps and more information are available on the website <http://gypsymoth.wi.gov> or e-mail program staff at gypsymoth@wisconsin.gov.

County	Site #	Location Description	Product x No. of Applications	Scheduled Spray Date and Status	Done ✓
Barron	1	226 acres; located southeast of Chetek; south of 6 ¼ Ave; north of 5th Ave.	Btk x 2	First application completed May 15. Second application completed May 22.	✓
	2	1,129 acres; located in Sioux Creek township; south of 1 ½ Ave; east of 22nd St; west of 23 ¼ St; north of Barron/Dunn Ave.	Btk x 2	First application completed May 15. Second application completed May 22.	✓
