

2013 Gypsy Moth Slow the Spread Program: Chart of Spray Sites and Completed Spray Dates

Wisconsin Department of Agriculture, Trade and Consumer Protection

Updated on July 23/2013

******* NOTE: All treatments were completed in Wisconsin as of July 23/2013 *******

- The 2013 Slow the Spread treatment is planned for 68 sites in the following 25 counties: Barron, Bayfield, Chippewa, Clark, Crawford, Dane, Douglas, Dunn, Eau Claire, Grant, Green, Iowa, Jackson, La Crosse, Lafayette, Monroe, Polk, Richland, Rock, Rusk, Sawyer, Taylor, Trempealeau, Vernon and Washburn. **This plan is separate from the Wisconsin Department of Natural Resources Suppression Program.**
- Aerial spraying depends on good weather and proper flying conditions. Therefore, dates are usually determined on a day-to-day basis. Any dates that were changed were due to weather, logistical or mechanical problems. The latest spray updates are available on the gypsy moth toll-free hotline 1-800-642-MOTH (6684), option 1.
- Sites will be treated with one of the following three products: *Bacillus thuringiensis* var. *kurstaki* (Btk), Gypchek (NPV) or Mating Disruption (MD). Generally, Btk and NPV will be applied late spring, and MD treatments will be applied in early summer.
- Maps and more information are available on the website <http://gypsymoth.wi.gov> or e-mail gypsymoth@wisconsin.gov.

County	Site #	Site Acres/Description/Location	Product x No. of Applications	Scheduled Spray Date and Status	Done ✓
